CASE FOR SUPPORT

Building a Sustainable Centre of Care, Dignity, Skills and Opportunity

Funding Request: US$4.5 Million

The Need

Soteria Charity Centre is established to provide practical care, support and sustainable opportunities for vulnerable and underserved people in Nigeria, including elderly persons, sick and vulnerable individuals, and people experiencing homelessness and severe social and economic hardship.

The Centre currently has **over 250 registered beneficiaries**, with the number continuing to grow. The increasing demand demonstrates the urgent need for a properly structured and sustainable facility capable of providing not only immediate assistance, but also long-term care, education, skills development and pathways to independence.

Our Vision

Our vision is to develop a purpose-built centre that brings together **care, accommodation, education, vocational training, rehabilitation and empowerment** within a sustainable and professionally managed environment.

The proposed development will include facilities designed to provide residential and supportive care for vulnerable people, alongside a vocational and skills-development component that can equip beneficiaries and other members of the community with practical skills for sustainable livelihoods.

Why US$4.5 Million?

The requested **US$4.5 million investment/funding** will provide the capital required to move the project from a growing charitable initiative into a properly developed, sustainable centre with the infrastructure and systems necessary to serve significantly more beneficiaries.

The investment will support the development of the required facilities, infrastructure, equipment, programme capacity and other project components detailed in the accompanying **Master Proposal, Business Plan and Financial & Investment Annex**.

The Impact

With the right partnership, Soteria Charity Centre can move beyond short-term relief and create lasting transformation by:

- Providing safe and dignified care for vulnerable and elderly persons.
- Supporting people who are homeless or facing severe hardship.
- Providing vocational and practical skills training.
- Creating pathways toward self-reliance and economic empowerment.
- Expanding the number of people the Centre can serve.
- Establishing a sustainable model capable of continuing to support beneficiaries over the long term.
- Creating a platform for responsible partnerships with government, charitable organisations, businesses, foundations and individual donors.

Why Partner With Us?

This is more than a request for financial assistance. It is an invitation to **build a sustainable institution that will transform lives for generations**.

Your prestigious organization can play a significant role in helping establish a centre that combines compassion with practical empowerment, creating measurable social impact while developing a model of sustainable community support.

We respectfully invite your reputable organization to consider partnering with Soteria Charity Centre in making this vision a reality.

Funding Requirement: US$4.5 Million
